

PHASE 0: ENTERPRISE READINESS AUDIT

DeepMindQ Enterprise Intelligence Operating System

Productization & Enterprise Readiness Assessment
72 Capabilities | 8 Domains | Target: 95/95

This audit evaluates every capability through five lenses: Technical Completeness, Intelligence Quality, Enterprise Experience, Investor Value, and Product Differentiation. Each capability is classified by productization category (Experience Layer / Completion / Build) and WOW impact. The output is the transformation blueprint for achieving 95% technical maturity and 95% enterprise experience.
